

# ALAMO

*Christy Collins*

**Sire: Playmate**

**Dam: Black Pick Daughter**

**Alamo is the sire** that everyone has been waiting for! His versatility of producing both Exotic and American influenced great slick shearing cattle that are incredible haired is the one thing that everyone has been searching for.

His male progeny are extremely descript in their muscle pattern. They are as perfectly square hipped as you can breed for and they all consistently have a hind leg that drives powerfully to the ground, while being built on a foundation of extraordinary bone and substance. But that is not all, the females, through the inherited maternal traits of ALAMO's mother, are extremely well uddered and very good maternally.

Last but not least, let ALAMO moderate your Brahman influenced cows in size while adding a perfect sheath and maintaining the needed extra skin for those great American sired calves.
